LANGUAGES

- English B1, enabling to read the documentation.
- Polish native

I am a front-end developer with over a year of commercial experience building browser and mobile applications using the React and React Native libraries. I am looking for opportunities to use my skills to work with a team where I can further develop technical knowledge and the ability to cooperate with others.

EXPERIENCE

OWN PROJECT

project: Notqe | od 04.2024

- An application designed to create and manage your tasks, assigned to a user account.
- Technologies: Next.js, TypeScript, MongoDB.
- The application is constantly being developed, the first test version is available.
